HUXCleaner In-Adaptor Ferrule Cleaner – 2.5mm and 1.25mm

HUXCleaner is a Pen Type In-Adaptor Ferrule Cleaner. The ferrule is often an overlooked source of trouble in the interconnections of the optical path. A properly cleaned ferrule is important to prevent unwanted signal error, especially the back reflection specification which is a big issue. The HUXCleaner uses a dry fabric that leaves no residue and cleans dust, dirt, or oil. It is easy to use, just press and turn. It has 500 wipes per pin. If you are not 100% satisfied with this product, please return for a full refund.

Part Number Matrix

HUXCleaner - xx - TBBS

Before cleaning

After cleaning

Ferrule Size

xx = 2.5 (for SC and FC)
= 1.25 (for LC and SFP)
