RF Attenuators 1" JXP PADS MN1 Type

Our 1" MN1 JXP attenuator pads are high quality 1.2GHz attenuators. They are engineered and built with the intent to be the best in the industry. These hard plastic encased JXPs are 100% compatible with the OEM's RF amplifier line. The internal "PC" board is ceramic for unsurpassed thermal and return loss specifications. The pad has a raise TBBS logo for easy identification of it's manufacturer. Great for **Max Net I** applications.
